# TOUGH GEAR FOR TOUGH WORK

DIMEX WORKWEAR IS DESIGNED FOR WORKING IN VARYING CONDITIONS THAT DEMAND ULTIMATE PERFORMANCE AND RELIABILITY. WHETHER IT'S A HOT SUMMER'S DAY OR A COLD WINTER'S NIGHT, THESE CLOTHES KEEP YOU PROTECTED AND COMFORTABLE.

Dimex workwear can take on wind, rain or snow, and they don't shy away from mud, sparks or chemicals.

The Dimex range covers workwear for all types of work and worksites both indoors and outdoors - from construction to transportation, from logging to welding and anything in between.

WHEN YOU NEED TOUGH GEAR FOR TOUGH WORK, YOUR CHOICE IS DIMEX.

## Not just empty words – Certificates ensuring quality

Dimex has been awarded the ISO 9001/2008 quality certificate

- EN ISO 20471:2013 ..... High-visibility clothing.
- EN 471:2003 ..... Visible safety wear for professional use.
- EN 1149-5 ..... Protective clothing, electrostatic characteristics, material and model requirements.
- EN ISO 11612 ..... Clothing protecting from heat and flames.
- EN ISO 11611 ..... Protective clothing used in welding and corresponding works.
- EN 13034, type 6 ..... Protective clothing against liquid chemicals.
- EN 343 ..... Rain-proof clothing.
- EN 342 ..... Cold-proof outfits and clothes.
- IEC 61482-2:2009 ..... Protective clothing for the thermal hazards of an electric arc.
- EN 381-5 ..... Cut protectors for a chainsaw user.

# DESIGNED FOR WORK

Who are the best experts in workwear? The workers who wear them, of course. That's why every detail in Dimex workwear is designed together with actual workers and tested in real working conditions.

Our testers are straight talking people. They'll tell us immediately what works and what doesn't; does the collar give enough protection, is the pocket exactly where it should be, and does the garment look good. This cooperation ensures that everything we put out meets real needs of a real workers.

# DESIGNED IN FINLAND

All our workwear clothes are designed in Finland and, for the most part, manufactured in Estonia. By keeping the production close, we ensure that the manufacturing follows our standards, and we can react faster to our customers' demands.

## INVOLVED IN MANY AREAS

- ▶ Earthworks
- ▶ Construction industry
- ▶ Assembly lines / heavy industry
- ▶ Agriculture
- ▶ Ports
- ▶ Forestry
- ▶ Welding / heavy industry
- ▶ Mining industry
- ▶ Landscaping
- ▶ Transportation

# BE SAFE, BE SEEN

When working in dark or poorly lit conditions, you cannot make any compromises on safety. With Dimex, there's no need to make any compromises on style either. Functionality and comfort are top notch, too.

Naturally, our range includes clothes for all seasons and weather conditions. So when you want to work smoothly, stay safe and look good, your choice is Dimex.

If used with jacket 5072, 5092, 5940, 6012, 6150, 6210, 6240, 6330, 6350, or 688, visibility complies with protection class 3. Knee pad 4005 and 043.

## THE TOUGH ALL-ROUNDERS

The DimexBlack line is Dimex's staple collection that caters for the most common needs of various workplaces - from construction sites to workshops and industrial work. DimexBlack clothes are well-fitting, functional, durable and good looking. They're packed with well-thought-out details, and you can combine garments to suit your specific needs and working conditions.

The DimexBlack line includes clothing designed specifically for construction work as well as the very popular DimexAttitude range with a more modern style.

# DIMEXBLACK

NEW

### THE ULTIMATE WINTER PARKA

The black winter parka is a sister model of our Hi-Vis parka (model 695), and the flagship of our winter coats. Its features make it a full-fledged work parka, and its style makes it wearable in your free time as well. The extra-thick Thinsulate insulation ensures warmth even at freezing temperatures.

### WINTER PARKA 696

S-3XL

74 % polyester, 26 % polyurethane, 210 g/m<sup>2</sup>, 150 g/m<sup>2</sup>  
Thinsulate wadding. Black.

Zipped chest pocket, bottom pockets, sleeve pocket, horizontal/vertical pull-out ID card pocket. Zipped and open inside pocket, document pocket. Straight hem, straight adjustable cuffs with rib-knit inside. Drawstring waist. Detachable hood with Velcro adjustment. Reflective printing reinforced with reflective fibre-containing fabric. Front storm flap. 8 mm zipper with larger teeth. Extra warm wadding.

NEW

### TROUSERS 6016

46-64

40 % CO, 30 % PES, 30 % EME(T400), 205 g/m<sup>2</sup>, flexible, light and breathable material. Grey.

Front pockets, D-ring. Cargo pockets, zipped pocket, horizontal/vertical pull-out ID card pocket, and back pockets. Bellows at the knees. Drawstring legs.

**NEW**

### SOFTSHELL JACKET 687

XS-4XL

Softshell: 86 % polyester, 12 % polyurethane, 2 % elastane, 320 g/m<sup>2</sup>, flexible, windproof and water-resistant. Black.

Reflective fibre-containing reinforcements at elbows. Zipped chest pocket, D-ring and removable pocket for ID card. Zipped bottom pockets, with warm interior surface. Zipped sleeve pocket, open and spacious inside pockets. Shaped elbow, straight sleeve, adjustment string at cuff opening. Straight, adjustable hem. Reflective Dimex printed stripes.

JACKET 687

### FOR WORK AND LEISURE

The practical and versatile softshell jacket is especially convenient in winter and spring. With fleece underneath, it is also a good choice for mild winter weather. The jacket is windproof and water-resistant; there are no seams on shoulders for water to penetrate.

### ID CARD POCKET COMES STANDARD

Did you know that in case of this Dimex jacket, the ID card pocket is standard equipment, unlike in case of many other manufacturers? The ID card pocket can be attached to the D-ring in the vertical or horizontal position, or altogether removed.

### NEW FEATURE

Trousers 620 are also available with 5 cm longer legs (sizes 48-56) or 5 cm shorter legs (sizes 48-64).

Product denominations:

Trousers 620+5

Trousers 620-5

### TROUSERS 620

44-64

46 % CO, 16 % PES, 38 % EME(T400), 295 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, flexible, extremely breathable and durable material. Black.

Cordura reinforcements at knees and leg openings. Front and thigh pockets, cargo pockets, mobile phone and pen pocket, horizontal/vertical pull-out pocket for ID card, back pockets and knee pad pockets. Hammer loop, ruler pocket, button and loop for knife. D-ring. Reinforcing extra stitching at the crotch. Adjustable hem 4 cm. Reflectors. The fabric will fade after the first few washes, resulting in stonewashed look. Wash inside out to reduce fading. Knee pad 4005 and 043, back pockets.

### TOOL VEST 677

S-3XL

65 % polyester, 35 % cotton, 300 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, strong, easy to care for and breathable. Black.

Chest pockets, bottom of right chest pocket detached, safety ribbon and snap-fastener. Horizontal/vertical ID card pocket, pen and mobile phone pocket, glove and screw pockets, bottom detached. Belt, hammer and accessory loops, loops for knives. Two knife buttons. Fixed extension piece in front, zipper attachment. Sturdy belt distributes weight away from the shoulders. Reflectors.

### JACKET 639

XS-3XL

46 % CO, 16 % PES, 38 % EME(T400), 295 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, flexible, extremely breathable and durable material. Black.

Cordura reinforcements in shoulders, elbows, hem and cuffs. No lining. Chest pockets, pull-out ID card pocket, zipped pocket, double bottom pockets, open chest pocket and inside pocket. Straight, adjustable cuffs and hem. Front storm flap. Reflectors on sleeves. The fabric will fade after the first few washes, resulting in stonewashed look. Wash inside out to reduce fading.

### SHORTS 680

S-3XL

65 % polyester, 35 % cotton, 250 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, lightweight, compact and flexible. Black.

Cordura reinforcements in knee pad pockets. Front pockets, thigh pocket, cargo pocket with pleats and snap. Ruler and pen pockets, large back pockets. Button and loop for knife. Belt loops. 3/4 length.

## CRAFTSMANS TROUSERS 676

44-64

46 % CO, 16 % PES, 38 % EME(T400), 295 g/m<sup>2</sup>, 65 % polyester, 35 % cotton, 300 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, flexible, extremely breathable and durable material. Dark grey/black.

Cordura reinforcements in front pockets, knee pad pockets and leg openings. Double Cordura holster pockets in front. Front pockets, bottom reinforced with Cordura. Cargo pocket including a pull-out horizontal/vertical ID card pocket. Pen pockets, pocket for a mobile phone, back pockets. 2-in-1 knee pad pockets, Cordura. Hammer loops, ruler pocket, accessory loops, button and loop for knife. Reinforcing extra stitching at the crotch. Adjustable hem 4 cm. Reflectors on legs. 2-in-1 knee pad pockets: two different heights in one. Knee pad 4005 and 043.

## COMFORTABLE WORK TROUSERS

The holster pocket-trousers of the Attitude product family come with a rubber band at the waist, since users have found this to improve the fit. The cut of the trousers and suitably flexible material ensure that the trousers stay up and sit well also in difficult working positions.

## TRIPLE STITCHING KEEPS THE SEAMS INTACT

Due to varying working positions and constant motion, trouser seams have to endure great stress, especially in the crotch area. Because of this, the crotch stitching of these trousers is tripled.

## PAINTER'S TROUSERS WITH HOLSTER POCKETS 679

44-64

100 % cotton, 305 g/m<sup>2</sup>, Cordura 100 % polyamide, 240 g/m<sup>2</sup>, comfortable, rather light and durable. White/black.

Double holster pockets at front, reinforced with Cordura. Front pockets, bottom reinforced with Cordura. Cargo pocket including a pull-out horizontal/vertical ID card pocket. Pen pockets, pocket for a mobile phone, back pockets. 2-in-1 knee pad pockets, Cordura. Hammer loop, ruler pocket, accessory loops, button and loop for knife. Reinforcing extra stitching at the crotch. Adjustable hem 4 cm. 2-in-1 knee pad pockets: two different heights in one. Knee pad 4005 and 043.

## TROUSERS 675

Front storm flap. Reflectors on shoulders and sleeves. 8 mm zipper with larger teeth. Hem and cuff tighteners.

# FINLAND – A LAND OF EXTREMES

IN SOME COUNTRIES SNOW MEANS  
A DAY OFF. NOT IN FINLAND.

Finland is a special place in many aspects, and weather is by no means the least of them. In Finland, summers are hot and winters are cold, and it usually rains a lot between them.

Finns love to talk about the weather, sometimes they even complain about it – but the work goes on, regardless of the weather.

As a common saying puts it: There's no such thing as bad weather, only wrong clothes. It's no surprise that this phrase originated up in the north, where people have had to deal with a climate of extremes for centuries.

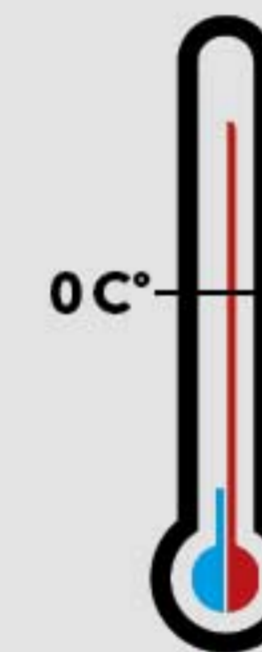

In Finland workwear must meet the demands of varying conditions. That is why Dimex knows how to dress up a worker appropriately for any kind of weather. And that is why you can trust Dimex for functional workwear where ever you work.

## FINNISH WEATHER IN 2014

The coldest day  
**-40.7 C°**  
(in January)

The hottest day  
**+ 32.8 C°**  
(in August)

The difference:  
**73.5 DEGREES**

# STAY PROTECTED FROM SPARKS AND FIRE

"I'm on fire", sang Bruce Springsteen in his hit song. Had The Boss been wearing a Dimex flame retardant outfit, the song had probably never been written. Dimex anti-flame protection suppresses sparks and flames, and prevents the clothes from catching fire.

Our anti-flame protection is weaved into the fabric, and therefore the protection won't wash or wear off like spray-on anti-flame finishes.

## EN ISO 11611

Protective clothing used in welding and corresponding works

## EN ISO 11612

Clothing protecting from heat and flames

# FLAME RETARDANT

## JACKET 644

EN ISO 11611 A1+A2 CLASS 1

The colour of the black flame-retardant fabric fades in wash.

## UNCOMPROMISED PROTECTION

Dimex multinorm clothes provide uncompromised protection and repel practically everything except admiring looks. These garments are highly visible, antistatic, flame retardant, and resistant to chemicals. The material is also tested against the thermal hazards of an electric arc. Multinorm clothes can be washed in 60 degrees (Celsius), and there are options available for winter use.

 **MULTI-PROTECTED**

Material for all products on the double page:  
75 % cotton, 24 % polyester, 1 % antistatic fibre  
310 g/m<sup>2</sup>. Winter products come with  
100 g/m<sup>2</sup> Safe TM wadding.

# FOR PROFESSIONAL LOGGERS

In Finland, professional loggers purchase their workwear collectively from a single supplier. The supplier must be able to meet their high requirements in terms of quality, safety, functionality, availability and price. Dimex has been the official clothing supplier of Finnish loggers since 2003, and the cooperation continues. This proves Dimex is a true specialist in workwear for professional loggers.

## THE PLUS SIDE

Dimex+ range complements your work outfit. The line includes shirts, tees and fleeces, as well as various accessories ranging from knee pads to belts, braces and hats.

Dimex+ collection also includes children's clothes made with the same commitment to quality as the adult clothing.

## FOR LITTLE HEROES OF LABOUR

Play is the work of children. And a hard work it is, for many hours per day are spent roaming in snow, mud, or sand. Top-notch durability and functionality are required from children's clothing – the same goes for adult work wear. Because of this, Dimex produces children's clothing for heavy-duty use.

### T-SHIRT 4056+

XS-4XL

100 % polyester. HI-VIS orange.

Ribbing at neckline. Red Dimex-seal printed on the hem. Design by Dimex.

DESIGNED IN LEPPÄVIRTA

### FLEECE 4062+

S-3XL

100 % polyester. Black.

Zipped chest pocket, D-ring, zipped bottom pockets, inside pockets, drawstring hem. Design by Dimex.

DESIGNED IN LEPPÄVIRTA

### SAFETY FLEECE 4063+

S-3XL EN ISO 20471 CLASS 2

100 % polyester. HI-VIS yellow.

Zipped chest pocket. D-ring, horizontal/vertical pull-out ID card pocket. Zipped bottom pockets. Open, spacious inside pockets, drawstring hem. Design by Dimex. If used with shorts 6014, visibility complies with protection class 3.

DESIGNED IN LEPPÄVIRTA

### HOODIE 4060+

S-3XL

100 % polyester. Black.

Zipped pocket, bottom pockets. Drawstring hood. Ribbing at helm and cuffs. Design by Dimex.

DESIGNED IN LEPPÄVIRTA

### SAFETY T-SHIRT 4058+

S-3XL EN ISO 20471 CLASS 2

45 % cotton, 55 % polyester. HI-VIS yellow.

Ribbing at neckline. Printed reflector. Design by Dimex. If used with shorts 6014, visibility complies with protection class 3.

DESIGNED IN LEPPÄVIRTA

### SAFETY T-SHIRT 4059+

S-3XL EN ISO 20471 CLASS 2

45 % cotton, 55 % polyester. HI-VIS orange.

Ribbing at neckline. Printed reflector. Design by Dimex. If used with shorts 6014, visibility complies with protection class 3.

DESIGNED IN LEPPÄVIRTA

### LONG-SLEEVED T-SHIRT 4057+

S-3XL

45 % cotton, 55 % polyester. HI-VIS yellow.

Ribbing at neckline. Light grey Dimex-seal printed on the hem. Design by Dimex.

### SHIRT 4003

S-3XL

65 % polyester, 35 % cotton.

High-quality shirt. Chest pocket with button, mobile phone pocket and pen pocket.

DESIGNED IN LEPPÄVIRTA

### WORK SHIRT 4099+

S-3XL

65 % cotton, 35 % polyester. Grey.

Shirt for heavy-duty use, thicker material. Design by Dimex.

### UNDERWEAR 488

S-3XL

100 % polyester, Active Dry. Black.

### CAP 4088+

1 SIZE

100 % cotton.

Standard cap. Black.

### CAP 4089+

1 SIZE

100 % cotton.

Cap with showy embroidery. Grey, black, yellow.

### HAT 4091 +

1 SIZE

100 % acrylic

Extendable hat with bobble. Grey, black, yellow.

### HAT 4092+

1 SIZE

95 % cotton, 5 % elastane, polyester lining.

Standard hat with fleece lining, fits under a hard hat. Black.

### KNEE PADS 4005

1 SIZE WIDTH 165 MM, HEIGHT 240 MM

100 % polyethylene

Well-shaped. Inner surface softer, outer surface flexible and harder. Orange/black.

### KNEE PADS 043

1 SIZE WIDTH 160 MM, HEIGHT 195 MM

Specially shaped plastic foam.

### BRACES 4096+

1 SIZE

70 % polyester, 30 % elastane. Fasteners: PU leather. Iron buckle. Black.

Reliable locks.

### NECK WARMER 4098+

1 SIZE

100 % acrylic, 100 % polyester lining

Fleece lining. Black, grey, yellow.

### TUBE SCARF 4093+

1 SIZE

100 % polyester

Grey. Versatile circular scarf with a moonscape print.

### WINTER HAT 4090+

1 SIZE

Lining 100 % polyester, imitation fur  
80 % acrylic, 20 % polyester. Cover 100 % polyester

Imitation fur and fleece lining. Plastic buckle for closure under chin. Grey.

### SOCK PACKAGE 4101+

40-42/43-44/45-46

50 % cotton, 50 % polyester

Thicker socks, three pairs. Black.

### SOCK PACKAGE 4100+

40-42/43-44/45-47

70 % cotton, 25 % polyester, 5 % elastane

Thinner socks, three pairs. Black.

### ELASTIC BELT 4095+

1 SIZE

80 % polypropylene, 20 % elastane. Black.

130 cm, cut to size by scissors and burn the cut surface.

### BELT 4094+

1 SIZE

100 % polyester

### BELT 4097+

1 SIZE

100 % polyester

Showy Skyline print, 130 cm, cut to size by scissors and burn the cut surface. Black, grey, yellow.

# PROPER MAINTENANCE FOR YOUR CLOTHES

## EXTEND THE LIFE OF YOUR WORKWEAR WITH PROPER CARE

All tools and equipment need regular care – workwear included. Proper maintenance and washing retain the workwear's qualities longer. Dirty workwear doesn't only look bad but may also lose its protective and high visibility qualities. All workwear wear out eventually, so it's also important to replace workwear frequently enough. To make the most out of your workwear, follow these simple instructions and tips.

- Wash the clothes when necessary. Dirt wears fabric out faster than washing.
- Close the Velcro straps, snap fasteners and zippers before washing.
- Do not wash full loads (fill the machine only to 60–80 % of the capacity). This way, you can minimise possible damage caused by wrinkling or abrasion, and the clothes get cleaner
- Always wash the EN-coded protective clothing separately, inside out. This enables the reflective tapes to stay reflective longer.
- Avoid soaking clothing items with reflective tapes.
- Do not use steam when ironing reflective tapes.
- Keep flame retardant clothing clean.
- Do not use bar or liquid soap when cleaning flame retardant clothing.
- Rinse carefully.
- Drying the clothes in the dryer for too long may shrink the clothes. Remove the clothes from the dryer while they are still a bit damp.
- Always wash in the temperature indicated on the washing label, and follow the washing instructions as well.
- Keep the clothes on hangers and, if possible, away from sunlight.

## THE BEST MATERIALS

Great workwear is made from the best materials. That is why we have carefully chosen our fabrics and materials suppliers. For us, it's important that our suppliers share our values in, for instance, corporate responsibility.

Our fabric suppliers are Carrington, Foxa, Klopman and Wernerfelt, all of whom are specialised in workwear fabrics. We only use zippers from YKK, the world's best known zipper maker. For reflective material, we use Scotchlite™ by 3M who also supply us with the Thinsulate™ insulation.

More information on the materials we use for our clothing can be found on the following pages.

**TFJ918**  
70 % polyester, 30 % cotton, 245 g/m<sup>2</sup>

- water and stain-resistant
- durable, easy to care for
- polyester on the outside, comfortable cotton on the inside (against the skin)
- colourfast
- functional general material for outdoor work, summer and winter

**INDESTRUCTIBLE**  
65 % polyester, 35 % cotton, 245 g/m<sup>2</sup>

- durable polyester/cotton mixture
- crease-resistant and easy to care for material
- breathable
- smart-looking
- suitable for working in summer or indoors

**ESCALADE**  
46 % cotton, 16 % polyester,  
38 % EME (T400@fibre) 293 g/m<sup>2</sup>

- highly flexible, durable and breathable
- fading in wash is a quality of the fabric
- comfortable to use: because of its special composition, it transfers moisture from the skin onto the fabric surface
- the material does not perspire, feels comfortable on the skin, and is breathable

**AQUARIUS**  
100 % polyester, 200 g/m<sup>2</sup>

- mechanically flexible
- lightweight and durable polyester fabric
- easy to care for
- suitable for working in summer or outdoors

**MOISTURE BARRIER**  
100 % nylon, 140 g/m<sup>2</sup>

- waterproof material
- protects against moisture

**BASIC WADDING**  
100 % polyester, 60 g/m<sup>2</sup>, 80 g/m<sup>2</sup>

- warm basic wadding

**THINSULATE™-WADDING,**  
100 % polyester  
*(used only in winter protection wear)*

- comfortable in use: thinner wadding allows achieving the same thermal value as thicker basic wadding
- very warm, breathable
- thermal insulation does not deteriorate in the wash; the protection from cold provided by the clothing is retained

**3M-REFLECTORS**

- ensure efficient and safe visibility
- we mainly use YKK – the leading zipper brand on the market

**CORDURA**  
100 % polyamide, 240 g/m<sup>2</sup>, cordura

- extremely durable material
- used for reinforcing knee pad pockets and holster pockets, for example, where high wear resistance is required

**FOXSHHELL**  
86 % polyester, 12 % polyurethane,  
2 % elastane, 320 g/m<sup>2</sup>

- flexible
- windproof
- highly water-resistant

**NECK TRICOT, AURA**  
100 % polyester, 170 g/m<sup>2</sup>

- pleasant, soft and warm inner neck material

**FIRE PROTECTED QUILTED LINING**  
30 % cotton, 35 % viscose FR, 35 % modacrylic,  
135 g/m<sup>2</sup>, lining 100 % polyester, 100 g/m<sup>2</sup>

- fire protected quilted lining, used in fire protected multi-winter products
- warm
- the slippery lining fabric surface facilitates dressing up

**DYNAMITE**  
65 % polyester, 35 % cotton, 300 g/m<sup>2</sup>

- durable polyester/cotton mixture for more demanding use, products with holster pockets
- crease-resistant and easy to care for
- suitable for both indoors and outdoors

**3111 PROBAN**  
100 % flame-retardant, cotton, 340 g/m<sup>2</sup>

- durable and breathable
- protects against heat and flame
- flame retardant treatment reduces fabric flammability; in the event of fire, the fabric extinguishes by itself and does not continue burning
- suitable for wearing while welding

**MEGATECPLUS**  
75 % cotton, 24 % polyester,  
1 % antistatic fibre, 310 g/m<sup>2</sup>

- multi-protected fabric, extra-soft treatment for improved comfort
- pleasant and durable
- protects against heat and flame
- conducts static electricity; the material is chemical-resistant and tested for protection against electric arc

**8209F**  
100 % polyester, 160 g/m<sup>2</sup>

- lightweight and durable polyester fabric
- easy to care for

**99115MF**  
76 % polyamide, 24 % polyurethane,  
210 g/m<sup>2</sup>

- extremely durable material
- waterproof

**RIB-KNIT CUFF**  
75 % acrylic, 25 % polyester

- warm and protective

**TFT260**  
65 % polyester, 35 % cotton, 250 g/m<sup>2</sup>

- mechanically flexible
- durable polyester/cotton mixture
- easy to care for
- suitable for working in summer or indoors

**JAGUAR**  
100 % polyester, 145 g/m<sup>2</sup>

- wind and water-resistant
- lightweight and durable polyester fabric
- easy to care for
- suitable for working in summer or outdoors

**3111**  
100 % cotton, 305 g/m<sup>2</sup>

- comfortable cotton
- highly breathable
- suitable for working indoors, in summer, or outdoors

**ACTION JAGUAR**  
74 % polyester, 26 % polyurethane,  
210 g/m<sup>2</sup>

- waterproof and breathable material
- suitable for outdoor work in the rain

**8151**  
100 % polyester, 305 g/m<sup>2</sup>

- elastic rib-knit at the back brings more comfort

**FOREMAN**  
67 % polyester, 33 % cotton, 240 g/m<sup>2</sup>

- water and stain-resistant
- durable
- easy to care for
- functional general material for outdoor work, summer and winter

**LUMINEX 310**  
85 % polyester, 15 % cotton, 310 g/m<sup>2</sup>

- durable polyester/cotton mixture
- for more demanding use, products with holster pockets
- crease-resistant and easy to care for
- DuraClean stain-resistant finish, HI-VIS colours
- suitable for both indoors and outdoors

**LAGONDA**  
40 % cotton, 30 % polyester, 30 %  
EME (T400@fibre), 205 g/m<sup>2</sup>

- highly flexible, lightweight and breathable
- comfortable to use: because of its special composition, it transfers moisture from the skin onto the fabric surface; the material does not perspire, feels comfortable on the skin, and is breathable

**3110**  
100 % cotton, 305 g/m<sup>2</sup>

- comfortable cotton
- highly breathable
- suitable for working indoors, in summer, or outdoors

**JAGUAR TPU**  
74 % polyester, 26 % polyurethane,  
210 g/m<sup>2</sup>

- waterproof and durable material
- suitable for outdoor work in the rain

**JESSGROVE P103 & 6030**  
100 % polyester

- basic wadding

**YKK-ZIPPERS**

- we mainly use YKK – the leading zipper brand on the market

**DIMEX IS A  
FINNISH FAMILY  
COMPANY THAT MAKES  
TOUGH CLOTHES FOR  
TOUGH WORK**

---

We have been making heavy duty workwear for more than 30 years. The cornerstone of our work is the cooperation with the people who wear Dimex to work every day. They trust us for quality and functionality, and we treasure that trust. We want to thank and listen to everyone who has chosen Dimex.

Your opinion and feedback helps us to develop even better workwear for you and your workmates, so let us hear from you.
